

## **STATEMENT OF PURPOSE**

### **RS19351**

This legislation establishes a commission under the auspices of the Board of Health and Welfare to offer advice on policies and potential legislative action aimed at improving the immunization rates of Idaho children. Members of the Commission include appointees from the Department of H&W, public health departments, the immunization coalition and clinical practitioners involved in the immunization of children as well as one Senator and one Representative. This commission offers advice on how the Idaho immunization program can be improved but is not involved in vaccine selection or financing.

### **FISCAL NOTE**

Expenses of legislative representative to participate are estimated at less than \$1000 per year.
